A GREENER TOMORROW: EMBRACING SUSTAINABLE PRACTICES 🌍

At the Netherlands France Chamber of Commerce, sustainability and climate action are part of our core values that drive our mission. We believe in the importance of protecting our planet and ensuring the well-being of future generations. This is especially critical as **Gen Z** demands greater accountability and action on climate change. (If you would like to learn more about involving and understanding Gen Z, join us on June 18th for [our webinar with ING](#)).

Our commitment to sustainability shines through in our recent CSRD webinar and our annual Knowledge Groups, which explore key topics related to sustainability. We're equally proud of our members who are leading the charge in green mobility and other eco-friendly initiatives, such as **Dopper**, **Impaqed Products**, **SpeedComfort**, **Holiday Charging**, **Circular & Co**, **Ebusco** and **SolarWoodle**, who are all champions of sustainability.

One standout example of sustainable collaboration is the partnership between **Bambook** and **IAM Agency** (on which you can read more below). Bambook's innovative and eco-friendly paper solutions are a testament to what we can achieve together for a greener future.

[Get in touch with us today](#) to learn how we can help you connect with the right partners and resources to advance your sustainable projects. Together, we can make a significant impact on the future of our planet! 🌱
